Global Child Health

16th Annual CAPGAN Scientific Meeting

Who attends?

The CAPGAN Meeting brings together pediatric gastroenterologists, hepatologists, nutritionists and global child health experts to share their expertise and scientific results with the common goal of improving the health and well-being of children worldwide.

Abstract Topics include:

- Nutrition
- Hepatology
- Gastroenterology
- EED
- Other

At the conclusion of CAPGAN 2019, participants will be able to:

- Summarize the burden of globally important gastrointestinal diseases
- Explain the current understanding of the pathophysiology behind malnutrition related organ dysfunction
- Demonstrate knowledge on the state of the art of acute and chronic liver diseases, including liver transplantation
- Increase their international scientific network related to the field of gastroenterology, hepatology and nutrition
